

Mobile Device Uses

Here's some of the things I've done

1. Documented a vacation with photos and videos
2. Kept the entire trip itinerary including maps on my iPhone
3. Pointed my iPhone to a Spanish sign and it was translated to English
4. Managed my passwords
5. Entered emergency contacts in Medical ID
6. Used Wi-Fi Calling
7. Set up Emergency SOS
8. Texted and called (obviously)
9. Used Hotspot to connect iPad to Wi-Fi
10. Set up Favorite contacts
11. Checked my Email
12. Deleted all email in trash at once
13. Set up Widget Screen
14. Transferred funds
15. Customized Control Center
16. Transferred movie to iPhone and iPad
17. Made sure my photos were being backed up
18. Watched tutorial videos
19. Checked news, weather and sports
20. Shopped (what a surprise)
21. Reviewed several products
22. Played a game (only once!)
23. Read several books
24. Traveled with just an iPhone and no iPad nor Laptop
25. Got directions to a location
26. Edited photos with free Apps
27. Shared photos and videos
28. Used FaceTime to show an object to someone
29. Told Siri to set an alarm or timer
30. Located my parked car
31. Dictated a note on my iPhone
32. Listened to music
33. Saved and viewed files including manuals on Cloud storage App
34. Downloaded digital copies of auto insurance cards
35. Put copies of our passports on my iPhone
36. Scheduled events with Google Calendar sync'd with wife's calendar
37. Scanned and printed documents
38. Transferred photos and videos to Desktop PC
39. Downloaded and deleted an App on iPhone
40. Transferred music from a CD to iPhone
41. Checked in picture was level
42. Checked out of store with Apple Pay
43. Conducted online research
